Dear ENERGY STAR Computer Server Partner or Other Interested Stakeholder:

EPA invites interested stakeholders to RSVP for EPA's March 11th Version 2.0 Computer Server Stakeholder meeting. EPA will be holding this in-person meeting in Washington D.C. on Friday, March 11, 2011, from 9 AM to 3:30 PM, Eastern Standard Time. This meeting will be focused primarily on revisions to the product family structure in the program and assembly of a dataset necessary to validate revisions to requirements. To participate in this online meeting, stakeholders must register to attend no later than Friday, March 4th, 2011. Please RSVP by clicking this [link](#), or by emailing servers@energystar.gov with the subject "RSVP – ES Server March 11 meeting."

Please note that due to space constraints, EPA can only accept a maximum of two in-person participants per organization. EPA plans to offer a conference call-in line and shared meeting materials for remote attendees.

EPA will provide opportunities for brief stakeholder presentations at various points in the meeting; if interested, please indicate a proposed topic in your RSVP email. EPA asks that those who intend to participate in this meeting review the attached Discussion Guide in advance and come to the meeting prepared to contribute to the discussion on the topics presented.

Attached with this message are (1) a Dataset Discussion document describing EPA's revisions to product families, (2) a Dataset Test Method document that includes directional updates to definitions and the test method, and (3) a tentative agenda for the stakeholder meeting. These documents will be discussed at the meeting and are provided for stakeholder comment in advance of dataset assembly efforts and composition of further specification drafts.

Thank you for your continued support of ENERGY STAR!

This message was sent to you on behalf of ENERGY STAR. Each ENERGY STAR partner organization must have at least one primary contact receiving e-mail to maintain partnership. If you are no longer working on ENERGY STAR, and wish to be removed as a contact, please update your contact status in your [MESA](#) account. If you are not a partner organization and wish to opt out of receiving e-mails, you may call the ENERGY STAR Hotline at 1-888-782-7937 and request to have your mass mail settings changed. Unsubscribing means that you will no longer receive program-wide or product-specific e-mails from ENERGY STAR.
