ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit [www.energystar.gov](http://www.energystar.gov).

Dear ENERGY STAR® Computer Manufacturer or Other Interested Party:

EPA is kicking off the dataset assembly effort for development of the ENERGY STAR Version 6.0 Computer Specification. Attached with the message is a cover memo, test method, and dataset assembly forms split by product type. For consideration, data must be forwarded to [computers@energystar.gov](mailto:computers@energystar.gov) using the appropriate form by **Wednesday, September 14, 2011**.

The dataset forms incorporate feedback received from stakeholders earlier this month. There is a single form for Desktop, Integrated Desktop, and Notebook computers, and one form each for Workstations, Small-scale Servers, and Thin Clients. Please refer to special instructions in the first worksheet of each.

As noted previously, EPA is also distributing a draft Full Network Connectivity validation procedure. It has been developed to verify the presence of Full Network Connectivity functionality as dictated by the Ecma-393 standard and the current ENERGY STAR V5.0/5.2 Computer specification. EPA welcomes comments on this document as well via [computers@energystar.gov](mailto:computers@energystar.gov) and will accept comments through August 17th.

Thank you for your continued support of the ENERGY STAR program.

For more information, visit: [www.energystar.gov](http://www.energystar.gov)

This message was sent to you on behalf of ENERGY STAR. Each ENERGY STAR partner organization must have at least one primary contact receiving e-mail to maintain partnership. If you are no longer working on ENERGY STAR, and wish to be removed as a contact, please update your contact status in your [MESA](#) account. If you are not a partner organization and wish to opt out of receiving e-mails, you may call the ENERGY STAR Hotline at 1-888-782-7937 and request to have your mass mail settings changed. Unsubscribing means that you will no longer receive program-wide or product-specific e-mails from ENERGY STAR.
